- Self-locating 'smart' magnetic locking arms and low profile mag bars
- Available as frame or graphic hanging kit
- Option for graphics to be displayed on both sides
- All front curve / D-end panels are the same size
- D-end graphic panels also fit the Quick Tower
- Smaller graphic size 'Midi' version available
- Available in a combination of quads from 1 x 1 desktop to 5 x 5 freestanding exhibition display
- 3 quad graphic height 2225mm approx
- 3 quad midi graphic height 1850mm approx
- Complete with frame & Mag Bar bags

Code WH223-C-C (3x3 Curved)

Fabric panels are available  
for all brands of pop-up

## Evolution Spyder

A high tech lightweight pop-up with all the features of the Xpress, the pop-up frame is constructed in a cross braced format for extra rigidity, and stability on uneven surfaces.

- Small 8mm tube frame with high tech styling
- Quality anodised aluminium finish
- Tallest pop-up in the range
- Narrow footprint for use in more compact spaces
- Enhanced graphic support
- Option for graphics to be displayed on both sides
- Available as frame or graphic hanging kit
- Available in a combination of quads from 1 x 2 desktop to 3 x 5 freestanding exhibition display
- 3 quad graphic height 2375mm approx
- Complete with frame & Mag Bar bags

Code EK301SP-C (3x3 curved)

## Evolution Hop-Up NEW

Tension fabric systems are the next generation in large format graphic displays. These lightweight systems are highly portable and easy to set up, offering maximum impact with minimal fuss!

- Available in 3 x 2, 3 x 3 and 3 x 4 straight formats
- Wheeled carry bag (HUB-001) available as an optional extra
- Stabilising feet (ES507) & spotlights available on request

Fabric graphics shown (not included)

# Pop-Up Systems

3 Quads High Tower  
Code WH231 (Quick)

## Evolution Tower

An exciting pop-up tower that is simplicity itself to assemble and provides maximum impact to any display

- Available as Quick System
- Panel sizes are the same as the D-end front curve of the Quick
- Choice of heights
- Compact for easy storage
- Overall diameter 640mm approx
- Can be illuminated - internal lighting (full 360°) use 9 x Powerspot 1200
- Recommend use of US601B Linking rod

Quick Fitting  
Powerspot 1200 lighting

## Fabric Pop-up

- Fabric kits are available for all Evolution pop-up systems
- Hard wearing fabric panels
- Use plain or add graphics with hook fastener tape
- Available for any brand of pop-up system

Elipse Case AC334B

## Graphic Cases

The essential accessory to transport pop-ups.

## Powerspot 1200

- Illuminate with 20w Fluorescent lighting for greater display impact

Code PS1200

## Pop-up Features

All the 'spares' and accessories you need for your pop-up display.

### Shelving

For curved and straight systems.

### Balloon Panel Kit

Lighting kit for translucent panel, which may be overprinted.

(Panel not included)

### Modular Exhibition Stands

It is possible for us to create a range of pop-up configurations for presentations and exhibitions. Our design & projects team will be happy to assist you with your design.

### Stabilising Foot

Recommended for straight systems or where internal or external load-bearing shelving is used.

### Case to Counter Conversion Kit

Elipse and Deluxe pop-up cases may be converted into counters, with a table top insert and a choice of beech or fabric wraps. Alternatively you may wish to use your own graphic.

# Modular Panels

One of the largest choices of modular panel systems available. Use them to create any kind of presentation or display from desktop to full exhibition stand.

Four panel styles in standard or custom sizes provide display systems suitable for all types of event and budget. Our design & projects team is able to provide innovative exhibition display layouts. Non standard colours, configurations and sizes available, the choice is yours! See fabric swatch.

IMPROVED

IMPROVED

## Display Matrix

Premium panel range offers a complete modular system that is flexible enough for a wide range of applications from simple presentation kits to conference and exhibition stands.

A choice of high quality toolled extrusions offer panel styles to suit a variety of applications: fabric panels, replaceable graphic panels, clear acrylic panels and seamless graphic walls. (Wide range of accessories, matching furniture and panel display units).

6 Panel Kit

## Folding Kits

Available in Baseline and Contender

Available as 6 panel, 7 panel and 8 panel Kits, standard sizes below (other sizes available).

- 900mm (h) x 600mm (w)
- 1000mm (h) x 625mm (w)
- 1000mm (h) x 700mm (w)

All kits are very quick and easy to assemble, and loop nylon fabrics are available in a wide range of different colours. (7 Panel Kit includes triangular table top).

7 Panel Kit

8 Panel Kit

## Baseline

- Recessed panel face allows graphics up to 3mm thick to be fixed flush with the extruded frame
- Graphics remain in-situ during foldaway and transit
- Lightweight with loop nylon finishes
- Cost effective

## Contender

- Suitable for small to medium displays up to 3m x 3m with choice of panel sizes
- Choice of panel sizes and fabric colours
- Hinged or panel & pole options

## Phantom

- Very strong, durable and stable – ideal for hire
- Integral extruded frame provides option of seamless presentations
- Choice of panel sizes and fabric colours
- Full range of accessories, including clip-on shelving and lighting

## Panel and Pole

Available in Baseline and Contender

Available as 6 Panel & Pole Kit as standard. Can be easily extended by adding additional panels. Design service available.

## Magnetix

- Use as part of panel & pole display or stand alone folding kit
- Available in lightweight silver aluminium or with impact resistant black or grey PVC edge
- Lightweight, and simple to use
- Graphics fixed with magnetic tape

# Modular Panels

We offer one of the largest choices of modular panel systems available. Four panel styles provide display systems suitable for all types of event or budget, from portable displays or presentations to large sophisticated exhibition stands.

Our design & projects team is able to provide innovative exhibition display layouts, from standard panel components or from custom size panels, in a wide choice of colours. **See fabric swatch.**

## Jumbo Panels - Supersize

Available in Baseline and Contender

- 1.8m (h) x 0.9 (w) panels in loop nylon for attractive booths, back walls and screens
- Cost effective and user-friendly
- Available as 3 or 4 panel kits

## Junior & Senior Kits

Available in Baseline and Contender

Both the Junior and Senior kits are ideal for training environments and come complete with header and carry bag.

# Modular Panels - Display Matrix

**Display Matrix** is a Premium range modular panel system. It is constructed to very high specifications and has been designed for complete design flexibility.

**Mainframe™**  
(flush-face frame)

**Vitesse™**  
(recessed frame)

Ideal for Kitpac Kits,  
Exhibition Stands,  
Flush-fit vinyl graphics

Lightweight infill,  
ideal for folding kits

CAD design  
service available

Replaceable Graphic  
with fluted plastic infill

6 Panel Kit

3 Panel Kit

Replaceable Graphic  
with Acrylic or MDF infill

## Vitesse™ Folding Kits

Constructed from robust PVC frames and Class 1 fire rated board, Vitesse Kits are ideal for presentations and exhibitions. The recessed panel face allows graphics fixed flush within the extruded frame, making them easy to transport with graphics in place. Available as **3, 4, 6, 7** and **8** panel folding kits as standard.

Junior KitPac Pro - code KP1

Eco KitPac Pro - code KP2

## Discounter Units

Constructed from robust PVC frames and Class 1 fire rated board

- Simple panel and pole assembly
- Thermoformed top and shelf as standard

Profi KitPac Pro - code KP3

## KitPac Kits

Constructed from low profile PVC frames, making them ideal for seamless graphics, and Class 1 fire rated, KitPac kits are designed for exhibition and display stands and graphic walls. Quick and easy click-fit assembly panel & pole can be re-configured and added to to as your display needs change. Two options are available: KitPac™ Standard, supplied as panels only (no headers) and KitPac™ Pro, which include bag and \*tabletop (\*Profi kit only).

# Modular Panel Designs

For cost-effective exhibition solutions, our modular components can be used to create all types of stand, from a simple display booth, to exhibition stands that fit your design and functional requirements. Modular panels can be greatly enhanced with the use of graphics to deliver the promotional message.\* For fabric colours - see swatch.

The following samples illustrate what can be achieved at different budget levels. Full design service available.

## Sample 1

Simple display booth with computer demonstration area.  
Sample illustrates 2500 x 2500mm booth area.

## Sample 2

Medium sized booth space designed for product promotion and storage. Sample illustrates 3000 x 2000mm booth area.

## Sample 3

Exhibition space with display areas and storage.  
Sample illustrates 4000 x 3500mm booth area.

\* Graphics illustrated are not included.

# Arena4 Gantry

The Arena4 gantry system is ideal for creating exciting exhibition stands, showroom and retail displays, with a wide variety of components for complete design flexibility.

Arena4 is made from lightweight aluminium, yet is extremely strong, with a load bearing span of up to 6m.

## Features & benefits

- Lightweight aluminium construction
- Quick and easy to assemble with bolt and wing nut fixings - no tools required
- Load bearing up to 100kgs over 2m span.
- Maximum unsupported span 6m
- Outer dimensions of quad 200mm x 200mm approx
- 25mm approx tube dimensions

# Linear Modular Graphic Display Kits

## Linear Range

The Linear system consists of a unique range of aluminium frame profiles, components and accessories designed to offer the most cost-effective, **flexible display** solutions in the market.

Linear display kits are ideal for all types of promotion, exhibition or semi-permanent display. As the kits are modular, they can be added to and reconfigured for multiple-use. Together with a **choice of graphic fixing options**,

Linear systems can be created to fit the design and graphic media of your choice.

Kits are made as **portable** as possible using specially designed, rigid wheeled cases that hold components safely in place during transportation.

We have created a range of **standard display kits** for you to choose from, to satisfy a range of display applications.

**Circuit**  
Code **PK501**

# Portable Furniture

**Physique** is the flat-pack furniture of the display and exhibition industry. Constructed from composite materials and flexible MDF or PVC tambour, **Physique** can be transformed into virtually any shape or function required. **Physique's** strength and durability means that it can be re-used many times. All **physique** units are easy to assemble without the need for tools. **Tops and bases are available in Birch, Silver or Black thermoformed finishes.** (NB Bags are available for any of the portable furniture). **POA**

Physique units can also be custom designed to your specification.

**Physique** is constructed from MDF tambour, which is strong, versatile and available in beech, brushed aluminium laminate or a choice of fabric finishes.

Physique can be **custom** designed to fit your specific requirements. We simply need an idea or sketch to allow us to **design** it for you.

**Physique Contour** (see page 28) is a brand new range of 4 exciting designs that are strong, durable, high specification counter units specially created to complement the latest stand designs. Contour is constructed from heavy duty PVC tambour, available in silver or white and can be customised by overprinting directly onto the white tambour.

**Physique Graphic** incorporates a unique **Twist & Lock** pole system, constructed from composite materials and 25mm aluminium tube poles, creating an internal structure that strengthens the unit without the need for an MDF tambour wrap. This makes it lighter and more portable than traditional tambour wraps, at approx. 70% the weight. The graphic wrap (not included) can be applied directly using hook & loop fastener. This with the addition of PVC graphic strengthening strips, creates a cleaner more professional finish. (Available where indicated).

**Crescent**

- Ergonomic design
- Optional shelf
- Can be open or closed at back

Code PK187 (Freestyle only)

**Saturn**

- Ellipse shaped design counter
- Built-in A4 size leaflet holder

# Cases & Bags

Best Seller

## Ellipse Case - Code AC334B

- Cost effective case to transport pop-up frame and graphic with padded insert for lighting
- Oval insert converts top of case into a useful table top
- Optional case to counter conversion wrap available in beech or fabric as an alternative to a graphic
- Removable, lockable lid provides useful 'step'
- Wheeled for easy transport
- Wrap dimensions: 770 (h) x 1725mm (w) including 20mm hook fastener overlap
- Base internal size (at widest points): 160 (h) x 660 (w) x 390mm (d)
- Diameter of graphics section: 330mm
- Weight of case (when empty): 9kg
- Suitable for 3 x 4 curved or straight pop-up with graphics

(Case to counter conversion)

## Mini Elite Case - Code AC339

- Case to transport pop-up frame and graphic with padded insert for lighting
- Optional case to counter conversion wrap available in beech or fabric as an alternative to a graphic
- Removable, lockable lid
- Wheeled for easy transport
- Suitable for 3 x 5 curved or straight pop-up with graphics

## Graphic Drum

- Manufactured from tough yet lightweight polypropylene
- Available in 2 diameters, 300mm or 400mm and 2 heights, 850mm or 1020mm
- 300 drum - 5 graphic drops
- 400 drum - 10 graphic drops

## Wheeled Fabric Drum

New this spring

- Lightweight reinforced drum
- Twin wheels
- Easy pull-out handle
- Suitable for up to 7 pop-up graphics

Code AC335

## Pop-Up D Drum

- Manufactured from tough yet lightweight polypropylene
- Foam lined base for added protection
- Suitable for a 3 x 4 curved or straight pop-up with graphics
- Complete with carry handles and wheels for easy transportation

Code AC304

## Banner Tube

- Lightweight fabric bag and cardboard tube, ideal for transporting banner graphics
- Choice of 4 heights

Code AB120M - 850mm high  
 AB120AM - 1050mm high  
 AB120C - 1250mm high

### Pop-Up Frame Cover Bag

- Fabric frame bag
- 800 (h) x 220 (w) x 220mm (d)

Code AB105  
(Frame not included)

### Mag Bar Bag

- Fabric bag
- Keeps all your Mag Bars safe and clean
- 735 (h) x 110 (w) x 70 mm (d)

Code AB104  
(Mag Bars not included)

### Pop-Up Frame Padded Bag

- Fabric frame bag
- Includes fluted inner
- 800 (h) x 220 (w) x 220mm (d)

Code AB106

### Padded Lighting Bag

- Padded fabric lighting bag
- 570 (h) x 180 (w) x 120mm (d)
- Suitable for transporting two PS1000 halogen lights

Code AB101

## Polypropylene Cases

- Range of cost effective cases to suit graphics, panel and pop-up systems and literature racks
- Standard sizes from stock or custom made
- Optional extras include choice of colour, wheels and extra foam padding
- Strong and protective outer with foam padded lid and base

## Carry Bags

- Bags available to suit panel systems, banners, portable furniture and literature racks
- Optional extras available include choice of colour, logos, wheels and protective padding
- Standard size bags or custom made to specification

## 2 Part Oval Case

- Extremely durable
- Splits into two parts making it easier to manoeuvre into tight spaces or boots of cars
- Wheels on each half for easy transport
- Lockable tops

Code AC367

## Deluxe Panel Bag

- High quality standard bags
- With or without wheels
- Durable long lasting construction
- Available in 3 sizes

## Graphic Cases

- Manufactured from tough moulded polyethylene
- Moulded side and top handles making handling easy
- Integral wheels for ease of use
- Case can be locked (padlock not supplied)
- Ideal for safely transporting rolled graphic panels

Code AC333

Code AC332

### 900 Graphic Cases - Code AC333

- Internal size: 950 (h) x 340mm (dia)
- Weight of case (when empty): 5.5kg approx
- Holds 10 graphic drops

### 1200 Graphic Cases - Code AC332

- Internal size: 1289 (h) x 340mm (dia)
- Weight of case (when empty): 7kg approx
- Holds 10 graphic drops

# Strata Cable Display Systems

Versatile cable display solutions with a choice of fixing options for wall or ceiling suspension.

These quality components are available in silver satin finish and may be purchased individually or as kits.

4m x 1.5mm adjustable cable kit with built-in tensioner - screw fixing.

**Code P0110**

(NB - can not be used with P0106, P0107 or P0108 accessories)

Panel support for cable kits. 10mm dia x 15.5mm for substrate up to 4mm, 16mm dia x 20.5mm for substrate up to 7mm.

**Code P0113 and P0112**

**P0113** - 2mm  
**P0112** - 2.5mm

4m x 1.5mm adjustable cable  
kit rail fixing.

**P0109 - Recommended application:**  
Rail fixing (floor to ceiling) use P0109 with PR102 rail  
Rail fixing (wall to wall) use P0109 with 2 x P0107 variable joints and PR102 rail  
Wall fixing (wall to wall without rails) use P0109 with 2 x P0108 variable joints or 2 x P0106 variable wall plates  
Screw fixing (floor to ceiling) use P0109 with 2 x P0116 screw fix inserts

Double-sided panel support for cable kits. 10mm dia x 20mm for substrate up to 4mm, 16 dia x 43mm for substrate up to 7mm rotating. **Code P0122 and P0121**

**P0122** - 2mm

**P0121** - 1.5mm & 2.5mm

Acrylic poster holders with wings for panel support fixing. Available in the following sizes, in landscape (L) or portrait (P) format.
